

Setting up services for young people: Perspectives, Practice and Planning

First national meeting of the British Renal Society Transition/ Shared Decision Making Special Interest Group

When : Thursday 1st December 2016

Where : Frank Rifkin Lecture theatre, Mayo Building
Salford Royal Hospital, Stott Lane, Salford, Greater Manchester, M6 8HD

Objectives

To highlight, share and explore the practical aspects of improving health outcomes for renal transition and young adult patients and learn from good examples of patient centred care. This study day would be relevant to all involved in the provision of young adult and transition services, regardless of discipline.

Get involved

This event is all about sharing best practice.

If you have a service or idea you would like to share, a problem to solve or a question you would like to ask, please let us know.

We won't ask for lots of preparatory work, just a willingness to talk through your experience.

And please bring along any young adult patients who would like to come

Agenda and details below

**This is a free event
CPD approval applied for**
