

## The NKF has an Exciting project they would like to share with you

The NKF has an Exciting project they would like to share with you. The idea came about from the patient board at Fresenius and was kindly funded by the Freemasons. The project's aim is twofold – to address the public's lack of awareness of the need to have their kidney function checked AND to help your KPA and the NKF raise money.

NKF has commissioned the production of the charity ribbons (see picture) They are slightly different from others available to the public in that they are chequered ribbon – reminding the wearers to have their kidney function checked by the doctor. Each Ribbon comes with a leaflet on the importance of kidney health and sells for £1. If you are a KPA and would like to sell these, for every £1 raised your KPA may keep 50p.

You can order yours from our web shop at <http://store.kidney.org.uk> for larger orders please contact [pete.revell@kidneynkf.com](mailto:pete.revell@kidneynkf.com) to discuss discounts and presentation display boxes.
